DIGILEVEL 3D provides angles on illuminated display for better visibility, making an ideal for tasks in difficult or dark areas. Illuminated display rotates automatically for easy-to-use. Robust body protects from dropping, and hold button helps to record the angle values. Audible indication for level or 0°, 45°, and 90° brings notification. Accuracy of level (+/- 0.1° at 0° or 90°) makes precision values. Users get precise measurements in degrees and grades with easy operations.
