## 300 FOOT DEPTH RANGE
Intelligent sonar delivers unmatched depth readings to 300 feet. It also produces readings through boat, kayak, canoe hulls and ice.

## AUTOMATIC RANGE & SENSITIVITY
No need to dig through menus to make performance adjustments, we take care of just about everything for you.

## INDUCTIVE SWITCHING TECHNOLOGY (IST)
Operation switch uses magnets to activate all handheld functions. There are no holes in the housing for the switch, which produces ultimate waterproofing.

## DEPTHTRAX™ INTELLIGENT SONAR
Delivers precise depth readings and auto targets and intensifies bottom echoes for error free readings.

## 300 WATTS OF POWER
300 watts of DepthTrax sonar delivers unmatched readings through the murkiest water, softtest bottom and thickest ice.

## WATER TEMPERATURE
A sensor embedded in the handheld provides the display with water temperature readings to the nearest 1/10th degree.

## AIR TEMPERATURE READINGS
Temperature sensor doubles as and air temperature sensor to produce on the go ambient air temperature readings.

## SAFETY LANYARD
Integrated lanyard with quick disconnect prevents accidental loss. Attaches to neck, wrist or vessel.

## DUAL O-RING SEAL
2 o-rings combine to keep water out even under the most crushing conditions up to 200 ft depths.

## ALGORITHMIC SOFTWARE
Over 20 years of sonar development minimizes false readings and delivers precise targeting.

## ENGLISH & IMPERIAL READINGS
Easily change readings from feet to meters through the EasyTouch™ Menu.

## POLARIZED LCD
Allows for glare-free viewing of the display in any light condition, with or without sunglasses on.

## LED BACKLIGHTING
Low power consumption LEDs will not waste battery power or cause heat buildup & condensation.

## DESIGNED AND SUPPORTED IN THE USA
HawkEye® products are manufactured both in the USA and overseas using technology designed and developed with American ingenuity.

## YOU BREAK IT... WE FIX IT...
Hassle free repair or replacement for any damage, for any reason.
